

Ohio Veterinary Medical Licensing Board

Testing Accommodation Request

In compliance with the Americans with Disabilities Act (ADA), the Ohio Veterinary Medical Licensing Board (Board) will approve testing arrangements for candidates with professionally diagnosed disabilities. Under ADA, a disability is defined as “a physical or mental impairment that substantially limits one or more major life activities.” You must have a disability and provide comprehensive professional documentation supporting the diagnosis of the disability and its impact on your major life activity to be eligible for testing accommodations.

When requesting testing accommodations for temporary conditions (e.g. sprains, fractures, medical emergencies) or for an individual who has never sought testing accommodations during their education, all parts of the application must be completed, including documentation from a professional supporting the condition and its major impact on your ability to take the examination under standard conditions. Please note that the Board is not required by ADA to accommodate temporary conditions.

The standard conditions for taking the North American Veterinary Licensing Exam (NAVLE) can be found in the NAVLE Bulletin of Information for Candidates.

Applications to sit for the NAVLE will not be considered until the Board receives all parts of the request for testing accommodations. The applicant will receive written notification from the Board regarding whether or not the Board granted the requested accommodation.

Section I of this form must be completed by the applicant. If this is your first time to request accommodation in an academic setting, Section II must be completed by a qualified professional whose credentials are appropriate to diagnose the disability. If you have been previously tested for a disability and approved for accommodations in an academic setting, Section II may be completed by a qualified professional who has been most recently involved with your academic accommodations. The professional must have current knowledge of the candidate’s disability and must have diagnosed, evaluated, treated **or** consulted with the candidate within the last two years.

Testing Accommodation Checklist

- ☐ Section I must be completed by applicant
