9. **Executive Director Report:**

- A. Directives –The January 2017 Board meeting Directives have been completed.
- B. Governor's Appointments – No update.
- C. Budget Bill Report - Ms. Stir reported that the Board was appropriated \$396,369 in FY17. The Board was permitted to request 100% of the appropriated amount for FY18 and FY19. I requested additional funds to cover the anticipated cost of the new E-Licensing system in FY19 which was provided. The proposed amounts in the Budget Bill are \$396,369 for FY18 and \$439,369 for FY19. The Board brought in \$1,045,303 in the last biennium, so there is adequate funding in the 4K9 Fund at this time to cover the biennium appropriations. The Office of Budget Management "Blue Book" description of the Veterinary Medical Licensing Board and the budget appropriation was provided to board members. Testimony will be provided before the Finance Subcommittee on Agriculture, Development, and Natural Resources on March 9, 2017.

The Budget bill makes all pharmacy board complaints and investigations confidential and exempt from public record. Any other agencies that the pharmacy board shares information with must also comply with the confidentiality requirements. This may result in how the board processes those joint cases working with the pharmacy board and will definitely result in a change to the public record policy.

Another item in the budget bill is language for DAS to charge an individual a new fee up to \$3.50 per transaction in the e-licensing system. Each licensee who applies to the Board or renews their license would be assessed the fee. This fee charge language was not provided to the Boards prior to the introduction of the budget bill, therefore the details are unknown.

Also included in the Budget Bill is language to consolidate several of the health care licensing boards. A summary was provided.
